## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : Budong You et al.

Art Unit : 2818

Serial No. : 10/713,749

Examiner : Dung Anh Le

Filed : November 13, 2003

Title : A LATERAL DOUBLE-DIFFUSED MOSFET

**RESPONSE TO RESTRICTION REQUIREMENT**

Responsive to the action mailed May 19, 2005, applicant elects the invention of the Species illustrated in Figures 8A-8C. Claims 1-20 read on the species of Figures 8A-8C.

The election is made with traverse.

First, the Examiner appears to associate Figures 5A-7H with claims 1-16 and Figures 8A-8C with claims 17-20. However, Figures 8A-8C are not a separate species from Figures 5A-7H. Rather, Figures 8A-8C illustrate an implementation for implanting a P-body or second impurity region (516), which is one step in the process illustrated in Figures 5A-7H (step 608 from Figure 6). Furthermore, neither independent claim requires two implanting steps for forming the P-body or second impurity region; instead, this limitation appears in dependent claims 11 and 18.

Second, the Examiner states "Applicants are reminded to overlook claim 12, if Set of claims 1-16 is elected." This comment is not understood.

The Examiner is requested to contact the undersigned attorney by telephone if the Examiner desires to maintain a restriction.
